

CSI-USB UVC Camera Adapter Board for IMX477 High Quality Camera

(SKU: B0278)

QUICK START GUIDE

FEATURES & SPECS

- Supports Raspberry Pi Official High Quality camera and Arducam IMX477 HQ camera series.
- Data Format : MJPG
- Frame Rate: 10fps@4032x3040; 20fps@3840x2160; 30fps@2592x1944/2560x1440; 60fps@1080P
- Auto Controlled Features: Saturation, Contrast, Acutance, White balance, Exposure.
- System Compatibility: Win7/8/10, Linux, Mac and Android with UVC
- Signal Input: 22 Pin 0.5mm Pitch CSI connector
- Signal Output: 1.5mm Pitch ZH connector ZHR-4
- Voltage Input: DC 5V
- Connecting Port type: USB2.0
- Working Current: 200mA
- Operating Temp. : -4°F~167°F (-20°C~+75°C)
- Overall Dimension: 38mm x 38mm
- Hole Pitch: Compatible with 34mm x 34mm, 30mm x 30mm, 29mm x 29mm.
- Cable Length: Default 3.3ft(1m)

INTRODUCTION

• About Arducam

Arducam has been a professional designer and manufacturer of SPI, MIPI, DVP and USB cameras since 2012. We also offer customized turnkey design and manufacturing solution services for customers who want their products to be unique.

• About this USB Camera Adapter

This USB Camera adapter board can work with Raspberry Pi Official High Quality camera and Arducam IMX477 camera series. It makes the HQ camera UVC compliant, so as to highly extend the usage of the IMX477 cameras. Arducam also provides the sample application that demonstrates some of the features of this camera adapter combined with IMX477 camera board.

• About UVC

This adapter board makes IMX477 HQ camera a UVC-compliant camera. The native UVC drivers of Windows, Linux and Mac should be compatible with this camera, so it does not require extra drivers to be installed.

• About Customer Service

If you need our help or want to customize other models of IMX477, feel free to contact us at:

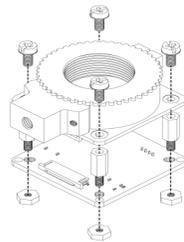

arducam.com/contact-arducam

QUICK START

• How to assemble the adapter board

Assemble the adapter board with IMX477 camera board as shown in the diagram;

Connect the two boards with camera ribbon cables (3.8cm 22pin to 15pin camera cable for Raspberry Pi Official HQ camera; 8cm 22pin to 22pin camera cable for Arducam IMX477 HQ camera series.)

• How to connect to PC

After mounting the C- or CS-mount lens you need, please connect the one end of the USB 2.0 cable to the USB 2.0 connector provided on the back of B0278, and connect the other end to the USB host controller on the computer.

• How to download the program for Windows OS
